

HUDSON VOICE STUDIO

service descriptions & pricing

The Hudson Voice Studio offers 30-minute weekly voice lessons. Automatic payments of \$140 are made on the first of each month. See below for more details!

PRIVATE VOICE

The Hudson Voice Studio offers private voice lessons for ages 5+. The nature of the voice lesson will depend on the student's age and experience.

For example, an elementary-aged student will likely focus on things like pitch matching, echo-singing short patterns, and exploring their voice.

Middle and high schools students might focus more on developing their vocal technique, extending their range, experiment with singing different genres, and audition prep.

Adult lessons will vary depending on the person's experience! These lessons may include developing vocal technique, extending vocal range, ear training, performance techniques, and exploring different genres and vocalisms.
